HOW IT WORKS

TubeDL

8K / AV1, in your browser.

No account. No install.

Made in Milan by Desemax

WHAT IT IS

Save any public YouTube video at full quality, straight from your browser.

Full quality

Up to 8K, including AV1.

No install

Runs in the browser you already use.

No account

Your invite email is your access.

HOW IT WORKS

Three steps, under a minute.

01

Paste the link

Copy a YouTube URL and paste it into TubeDL.

02

Pick a format

Choose the resolution and codec you want.

03

Download

The file saves to your device, ready offline.

WHAT YOU CAN PASTE

A video, a playlist or a whole channel.

Link	Looks like	You get
Video	youtube.com/watch?v=… or youtu.be/…	That one video
Playlist	youtube.com/playlist?list=…	Its videos, to pick from
Channel	youtube.com/@name	Its videos, to pick from

FORMATS

8K

Up to 4320p, in AV1, VP9 or H.264, whichever the video offers.

AV1

Smallest file at the same quality.

H.264

Plays on almost anything.

KEEP IT HANDY

Add TubeDL as an app, no store needed.

Mac, Safari

File › Add to Dock

Chrome, Edge

Install icon in the address bar

iPhone, iPad

Share › Add to Home Screen

GOOD TO KNOW

What it can’t do yet.

Private videos	Private and members-only videos aren’t available.
Age-restricted	These need a signed-in account, so TubeDL skips them for now.
A failed lookup	YouTube sometimes pushes back. Wait a minute and try again.

COMING NEXT

TubeDL for Mac

A native app on the same engine. Pre-order at **€9**; the price goes to **€19** at launch.

One payment, no subscription. Pre-orders fund the build.
